How else could we use the sports premium funding to benefit the school in the future?

To ensure continued professional development in line with our school needs it is essential that we continue to work with Kingsbury School Sports Partnership during the next academic year particularly to support new staff.

The Sports coach/Health mentor will be able to support our PE co-ordinator with assessment and continue the work planned for our school, working with the school teaching team to embed further the progress we have made this year.
